soaked in brandy

Blooming Bakery, located in Leeuwarden, is not just any bakery. It is run by victims of violence. The bakery is part of Fier, the national center of expertise and treatment in the field of violence in dependent relationships. The bakery provides a safe environment where the women can work on their future and discover hidden talents.

We are proud to be able to work with them.

OUR OWN COFFEE

There is nothing we like better than to exceed the expectations of our guests. However, enjoying good food and drink is just below that. Quality is extremely important to us. That is why we make choices. And one of those choices is roasting our own coffee beans. Full of love and passion, Wesley roasts our beans into his own unique blend. A few times a week he is roasting the beans on the mezzanine in the Grand Café according to Post-Plaza standards. Feel free to drop by for a brief explanation or take a bag of freshly roasted beans home with you.
